

**MESSAGE FROM RANDY**

RD Weis Companies is our own big family but we realize that there is an extended family beyond the company that makes sacrifices to make our work family what it is. For years, we've taken the time to recognize our birthdays and anniversaries and now it's time to recognize the extended family that supports us while we work.

And this family is growing. On July 20, I became a Great Grandpa! My grandson's name is Coulson, born to my granddaughter, Kiya, whose mother is my daughter, Kim.

**SUMMER VACATONS**  
**VIC FOTIA**

My wife and I went to see the Lavaux vineyards in Switzerland and took a trip to Yviore, France.

**SUMMER VACATONS**  
**SUZANNE KOLB**

I went to Northern Italy, Venice, Cinque Terra & Lake Como. It was very difficult to come back home.

## SUMMER VACATONS

### MARK ARBOGAST

Before my daughter, Natalie, headed back to California for her sophomore year of college, we traveled to upstate New York to visit my sister and to learn the art of making a family favorite, pierogis. We enjoyed the countryside and then went farther north to spend some time in Toronto.

**SUMMER VACATONS**  
**KEVIN QUICKLE**

This summer I took my nephew, Anthony Garber, on a trip to England and Scotland. We visited all of the tourist sites in London, was well as Stonehenge, Edinburgh Castle, and Loch Ness. Below is a picture of us at Stonehenge, where we watched the sunset from within the Stone Circle.

**RANDY WEIS**

I took time to hang with my grandkids this summer at Martha's Vineyard.

## **NEW PROJECT**

### **911 Memorial Bell**

We are working with the Port Authority of NY/NJ and the Chamber of Commerce of JFK Airport to help build a 9/11 memorial park on five acres of land that was donated by the Port Authority. An old bell was restored and polished meaningfully by Peter Criscione, our hard surface manager, who lost family that day 16 years ago. The

restored bell rang proudly at the 911 commemoration ceremony as the names of the lost were read.

**NEW PRODUCT**  
**Masland Woolridge**

Beautifully varied natural sheep wool is hand woven on traditional looms in India to produce rugs with a quietly sophisticated character. The blending of the undyed fibers creates subtle shifts of tonal colorations producing an understated backdrop to smart spaces.

In addition to the natural color movement created by blended yarns, these rugs are handsomely finished with either a random tip-shearing or a cut and loop construction. These processes add a unique personality to each pattern producing a custom, authentic look.

**NEW PRODUCT**  
**Adore Regent**

With the Regent collection, Adore has reimagined rigid core floors such as WPC with a stronger core made from bamboo composite (BPC). Regent has been designed for high performance and is a sustainable, more dimensionally stable, easy to install, waterproof floor.

Adore® Regent's unique core construction utilizes FSC certified bamboo composite. This sustainably sourced waterproof structure offers greater strength, greater damage resistance and greater dimensional stability over leading WPC competitors. On the top layer of Regent's composition, beautiful designer inspired visuals are enhanced for performance and include features such as four sided beveling, Cleantech™ microbistat technology, Duramond™ scratch and scuff resistance and an attached IXPE pad for sound absorption and comfort underfoot. Regent comes standard with the 5G Välinge® angle-drop locking system for the fastest, easiest most fool-proof installation available.
