

Vinyl. Make a connection.

We're talking. We're connecting. We're talking about connecting. When it comes to Vinyl floors and the seamless unification of value and design, connectedness is absolutely the conversation we want to have.

Vinyl. Mix well.

You get it. You're all about the big picture – expect every sheet, plank, tile, pattern, grain, texture and color to provide optimal interaction within a space. So we've designed all of our iQ™, Luxury Tile, Acczent® and other Vinyl flooring to do just that – mix well. Many times without wax or finishes or chemicals to get in the way. Thanks for being a perfectionist. We couldn't have done it without you.

Thanks to homogeneous iQ™ Construction, products with iQ technology retain their original beauty over time, or even improve their looks with nothing more than the occasional dry buff – no wax needed. The photo below features one half of a scratched iQ floor tile (left) and the same tile buffed to remove the scratches (right).

iQ™ DIFFERENCE

- Balanced construction throughout the entire depth of the product allows it to be easily and continually restored to its original beauty
- Our uniquely resistant design provides superior resistance to wear, abrasion and stain beyond the typical surface coating
- Quality raw materials and our innovative product structure greatly extend the lifetime performance and beauty of our flooring

iQ MAINTENANCE

- No protective chemicals, wax or polish required
- Fewer surface contaminants allow for more effective infection control
- Requires less water and chemical usage, and reduces discharge into waste water system

iQ SUSTAINABILITY

- Contains 25% recycled content as part of our ReStart® Reclamation Program
- FloorScore® certified, it reduces VOC emissions for better air quality

iQ SAVINGS

- Eliminating wax and polish saves up to 30% of lifetime maintenance costs
- Provides lowest cleaning and maintenance life-cycle costs of any resilient flooring

iQ™ Optima®. Keep collaborating.

Here we are again with two of our favorite collaborators – beautiful and practical. Beautiful brings her classic travertine looks in 54 fresh and relevant color designs to our iQ™ Optima® collection; while practical adds in low life-cycle cost and high performance ROI, courtesy of our homogeneous construction. Sealing out the elements, and sealing in the colors and patterns keeps our spaces looking good for life. Now that's what working together is all about.

iQ™ GRANIT™

iQ™ Granit™. Step it up.

Everyday floors without an everyday floor attitude. How refreshing iQ™ Granit™. Tough, you-can't-beat-me construction that'll last the life of the floor without waxing or stripping. Beautiful, nondirectional stone patterns in a range of colors. Plus, homogeneous composition. Which means all that good stuff runs through the entire product, and doesn't just stop at the surface. Heck, Granit even specializes. It's also available in slip-resistant Granit Safe-T and static-dissipative iQ Granit SD.

iQ™ Natural™ Vinyl Sheet. Unify.

We're sure that you'll agree, the more benefits and attributes in a particular product, the better. So we brought together the beauty and colors of Melodia™ 2.0 with the high performance attributes of iQ™ Construction to create iQ Natural™. Then, believe it or not, we added 75% natural and 16% renewable content to low maintenance, extreme longevity and the market's best life-cycle cost. Now that's what we call better together.

Melodia™ 2.0. Meet your match.

Ever meet that floor that seems to just have everything going for it? That are-you-kidding-me blend of aesthetics, performance and economics? Guess you've met Melodia™ 2.0. With the tough, UV-cured, factory-applied polyurethane surface treatment and the solid, homogeneous construction that sustains color and pattern all the way through. Then, there's the nondirectional design in 42 colors, plus 24 additional Aria™ palette options. So whatever attributes your project requires, chances are pretty good you've found your floor right here.

A LIFELONG CONNECTION.

The durable and resistant factory-applied UV-cured polyurethane surface treatment cuts maintenance costs dramatically over the lifetime of the floor by reducing the use of labor, water, energy and chemicals. Plus, homogeneous construction means color and pattern run all the way through our flooring helping maintain good looks for up to 20 years or more.

*Suggested Johnstone® colors for finishing borders (wall base). For our complete color offering, reference color guide in back.

From flooring to bases to transitions, these options were designed to coordinate perfectly. Eliminating guesswork and allowing you to design with ease.

Aria™ 2.0. Coordinate your efforts.

Even the floor with everything needs a companion, and that's Aria™ 2.0. Formulated with the same optimal balance of performance, aesthetics and lifetime ROI as Melodia™ 2.0, Aria 2.0, of course, offers something more. In this case, unique color accent granules that infuse depth and dimension into the flooring. Aria 2.0 is available in 24 colorways designed to perfectly complement Melodia 2.0 – making it easier to coordinate a room, a space or an entire institution.
