

XL GC GROUT CLEANER

Tech Data Sheet

XL GC is a safe, organic grout cleaner that cleans just like an acid, making it an ideal replacement for harsh hydrochloric and phosphoric acids.

Where To Use: **XL GC** is perfect for sanded grout cleaning on hard surfaces such as porcelains, ceramics, quarry tiles, and other non- calcium based stones.

How To Use: Prior to application of **XL GC** Grout Cleaner, all oils, greases and soils should be removed. This can be accomplished using XL TC Tile Cleaner. Make sure to test in an inconspicuous area to ensure that the grout is suitable to be cleaned. For normal use, dilute at a 1:5 ratio with fresh, clean water. However, if needed, up to a 1:1 ratio may be used. Apply evenly across the grout with either a pump sprayer or mop. A brush may be used to agitate if needed. For best results, use a portable extractor with a hard surface wand to remove the solution from the floor. In order to neutralize the pH of the grout, use XL TC Tile Cleaner at a 1:32 ratio, allow to dwell and then rinse completely.

TECHNICAL SPECIFICATIONS

COLOR:	Clear	TYPE:	Acid Cleaner
FORM:	Liquid	SOLID CONTENT:	N/A
SCENT:	Mild	INITIAL GLOSS:	N/A
pH:	1	RECOAT DRYING TIME:	N/A
FLASH POINT:	None	COVERAGE:	N/A
FOAM:	N/A	LEVELING:	N/A
VISCOSITY:	Water Thin	SLIP COEFFICIENT:	N/A
STORAGE (Unopened):	1 year minimum	REMOVABILITY:	N/A
BIODEGRADABLE:	N/A	SCUFF RESISTANCE:	N/A
WEIGHT/GAL:	N/A	DETERGENT RESISTANT:	N/A
SHIPPING CLASS:	None	HIGH SPEED BURNISH:	N/A
PACKAGING:	4x1 Gal. Case	DILUTION:	Varies
