

# RD WEIS<sup>LLC</sup>

The Flooring Solutionists

To My Friends and Colleagues,

We are experiencing an unprecedented moment in time. Companies are fighting for survival, forced to adapt to conditions that none have faced before. The risks in front of us have few tested answers.

This is a moment for rational thought and action. Not hysteria and fear. We must find ways to stand together and care for each other. We will come through these challenging times and we will be remembered by the wisdom and grace we show.

In this spirit, I bring forward to the community the services of professional disinfection from a reputable, experienced, and qualified company - RD Weis. As one of the earliest pioneers of disinfection services within the commercial floor care market, we have been providing soft surface disinfection services on both a regional and national level for the past decade. We have extensive experience with the use of hospital-grade disinfectants. We know what we are doing and we can help business and public facilities today.

Our supply chain is strong, fortunately in a better position than most. We have reliable access to effective sanitization materials. And, we are holding to the same pricing for our sanitization services that we have had for the past five years. This is a service to our community - not a business opportunity.

Disinfection service is likely to be part of our new normal. What has always been an important service is now a necessity.

Please know we are here for you now. Just let us know if and when we can help you.

Sincerely,

Randy Weis
