

Shaw Pure Gas is designed around
E A S E — Easy, Affordable, Safe, Effective

EASY

- Clean area prior to treatment and use gas in an easy pre-packaged system designed to treat up to 2250 cubic feet per gas unit.
- No mixing or measuring, just open foil, insert pouch in dampened sponge and place in container.

AFFORDABLE

- Each gas unit treats 250 square feet in 6 hours or less, reducing downtime.
- When compared to other treatment options, Shaw Pure gets more done in less time.
- Treat for a couple of pennies per cubic foot.

SAFE

- When used as directed, Shaw Pure requires no PPE.
- Does not harm interior finishes.

EFFECTIVE

- EPA registered product against odor causing bacteria.
- Cleans the air you breath.
- EPA REG. NO. 87508-2-98419.
