

# ***SURFACE CARE***

The RD Weis Surface Care program is  
**the single source, standardized maintenance solution**  
for your entire organization

The RD Weis Surface Care program is comprised of key components that create clean and healthy facilities

## **Spotlight On:**

### ***Carpet Cleaning***

Low moisture or dry carpet maintenance treatment provides sustainable and long-term care. Product is applied to carpet, adding anti-soiling technology to the fiber that suspends dirt and particles.

Once dry, the carpet is vacuumed, removing dirt, germs, dust mites, stains, allergens and odor sources leaving the fibers clean, dry and odor-free.

What's left behind is a protective barrier between your carpet fibers and harmful elements.

RD Weis carpet care treatment is an unintrusive and quiet process that can be completed overnight in most cases and eliminates drying downtime and liability for water-related slips and falls. It can be applied anywhere, anytime—allowing you to schedule maintenance to fit your needs.

Protect and enhance the quality of your facility's environment with RD Weis  
***SURFACE CARE*** maintenance services.
